Free media and discipleship resources for pastors, leaders, and growing disciples.

A JO Equipped Church

If you are a pastor of a small church, you carry a unique load of responsibilities. You wear multiple hats every single week, often with limited resources and little to no support staff. You may even work at another job to make ends meet — while still being expected to preach, counsel, visit, lead, and manage the church.

You're frequently swamped with day-to-day survival tasks, leaving little time or energy for the bigger vision God has given you. On top of that, attempts to try new things are sometimes met with resistance from well-meaning members who prefer to keep doing things "the way we've always done them." Reaching new generations and adapting to cultural shifts can feel nearly impossible.

JesusOnline is here to come alongside you.

The Toolkit for Engagement: JO EQUIP Resources

JO EQUIP is a free digital library of practical discipleship tools for pastors and disciple-makers — carefully organized into three mission-driven channels so you can find exactly what you need, when you need it.

JesusOnline offers free *Watch* → *Learn* → *Live* resources to strengthen engagement, depth, and retention in your ministry.

1. Watch

Open your message with a powerful, well-crafted video clip. Short, high-impact videos set the emotional tone, provide an overview of the message, and draw people in immediately — even those who may be distracted or visiting for the first time. Perfect for sermon introductions, youth groups, or small-group discussions.

2. Learn

Weave insightful articles and written resources into your sermon preparation and Bible studies. Draw from fresh biblical perspectives, credible scholarship, and practical insights that add depth and authority to your messages. Whether you're preaching on core doctrines or everyday Christian living, these tools help you connect Scripture to real life with greater clarity and impact.

3. Live

End your message by simply sharing the JesusOnline app (app.jesusunline.com) or its QR code. This gives your people an easy, ongoing way to review the sermon, reflect on the key truths, complete related Bible studies or devotionals, and actually apply what they've heard long after they leave the service. Many pastors use the app to extend the impact of their teaching week after week.

You can use our resources for your Sunday message, your Bible study, or your discipleship ministry.

Sunday Messages

We believe the primary purpose of Sunday messages is “teaching them to obey everything I have commanded you” (Matthew 28:20).

A Simple 5-Step Process You Can Use This Sunday

1. **Select a Topic.** Browse the JO EQUIP library and choose a topic that fits your upcoming message (from the Evidence, Growth, or Church channels).

2. **Build Your Message.** Use the article as your skeleton outline or rich resource material. Develop the key truths with your own illustrations, personal stories, pastoral insights, and relevant examples from your congregation. The content is biblical, trustworthy, and ready to save you hours of preparation.
3. **Capture Attention Immediately.** Play the summary video at the very beginning of your message. It sets the emotional tone, gives people a clear preview of where you're going, and draws in even distracted or first-time visitors.
4. **Deliver Your Teaching.** Preach with freedom and confidence, knowing the core content is solid and well-researched.
5. **Extend the Impact Beyond Sunday.** At the end of your message, share a specific link (or QR code) from the JesusOnline app that takes people directly to the article and related resources you used. They can now review the main points, reflect deeper, answer discussion questions, and apply the truth — all on their phones. It becomes their personal takeaway notes and discipleship tool for the week.

Why Pastors Love This Approach

- Saves significant preparation time

- Provides high-quality, biblically faithful, transformational content
- Increases engagement during the service
- Dramatically improves retention and real-life application
- Turns one sermon into an ongoing discipleship experience

Bible Study

You can use our Bible study series or create your own using our materials.

A Simple 2-Step Process to Create a Bible Study

1. **Select a Bible study series.** Bible study series are found on the JO EQUIP Growth channel.
2. **Develop new habits.** We believe the main goal of Bible study is life transformation through practice. End each study by creating a simple action plan to apply the truths learned — then begin the next meeting by sharing how people put the plan into practice.

Optional: create your own Bible studies. The JesusOnline app library offers hundreds of articles and many article series. You'll find some of them useful as the basis for a Bible study, and you can turn any article into a stand-alone study.

Discipleship Ministry

Our resource materials in the Church channel are both Spirit-led and strategically organized to help you strengthen your ministry.

If you're looking to develop or improve your discipleship ministry, we offer free coaching — contact Pastor Jonathan for more information (equip@jesusonline.com).

All resources are completely free, mobile-friendly, and thoughtfully created with the real challenges of small-church ministry in mind.

- Experiencing God 24/7
- Laying a solid foundation
- Building blocks for maturity
- Attitude and behavior

- Becoming a growing church
- Understanding evangelism and sharing your faith
- Next steps for new believers
