

Spiritual Breathing

Walking in the Spirit is a moment-by-moment dependence on Him. One helpful picture is what Bill Bright called “spiritual breathing.” Just as physical breathing involves exhaling what is harmful and inhaling what gives life, we “exhale” sin through honest confession and “inhale” the Spirit’s control by faith.

Whenever you become aware of sin or self-centeredness, you can turn quickly: confess it, and by faith entrust yourself again to the Spirit’s leadership. He is always ready to restore and empower you.

Exhale: Confess

Inhale: Trust
